

NATURE PRAYER

I humbly, bow to the flocks of birds whose twitterings make melodious morning song and streams of trees whose greenery swathe the mother earth and fill the air with glorious gases.

O! my mother earth, I take the message of dignity of hard work through never resting ants and the strength of unity through flocks of crows. I realize that twinkling squirrels and tangling leopards also have right to live like me. I promise that I shall not disturb their habitat, I shall not misuse the natural resources and pollute nature with pesticides and plastic wastes. I shall behave wisely and strive for the eradication of superstitions. I promise to conserve the biodiversity and behave with aesthetic sense and scientific attitude to protect the nature.

It's okay

Our chirpings are sure to make you sick

When you get them all just with a click

Gone are the days when were auspicious

Today our existance is suspicious

We wonder...!

When was the time I lost my friends

Who chreed us at every single act

When did the slabbed roofs, pesticides

And cells towers came as

a night maring fact

We are sure to die with no plce to live

We question you as we have

no answer to give

When fore sight is far sighted

List of to be extinct is highlited

Today it's US
